

# Over-Under

Two-Component Dispensing System

Structural Adhesives • Epoxies • Silicone • Urethanes

MODEL XDS1005 SHOWN

## Features

- All pneumatic drive unit
- Continuous precise mixing
- Manual or pneumatic dispensing valves/mixers
- Purgeless or air/solvent flush
- No Open Containers
- Variety of transfer options for pails or drums
- Chain driven proportioning pumps
- Variable-Ratio (gear change - ratio change)
- Simple to operate maintain
- Portable compact cart

Composite Fabrication Equipment  
Pioneer of High Flow Structural  
Adhesive Dispensing Systems

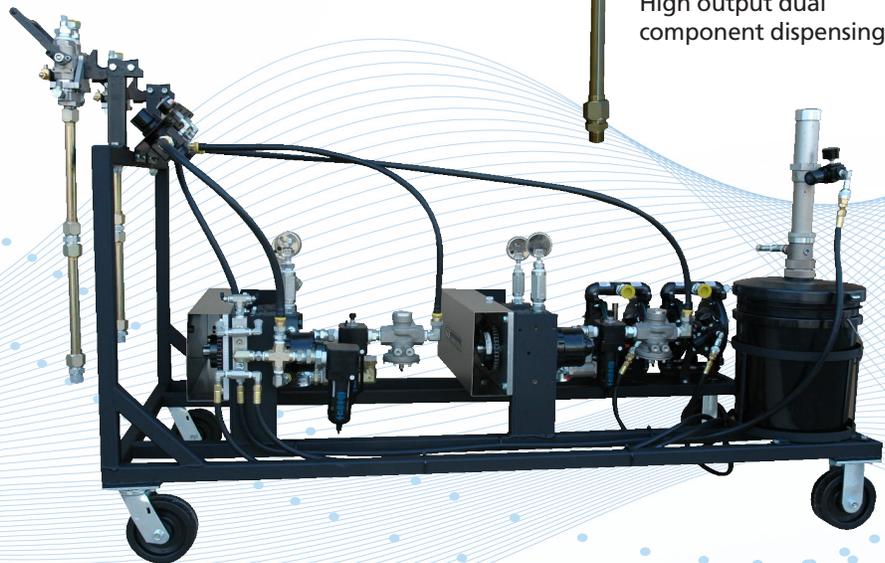

Model XDS1000  
Compact metering system

Model BW1000-05  
High output dual  
component dispensing valve

Model XDS1000-C108  
Dual metering systems  
from one machine

### System Specifications

- Output up to 3 gal/min (3.8 L/min)
- Ratio 1:1-10:1
- Air consumption up to 25 CFM-high flow

### Standard Components

- Pneumatic drive motor
- Gerotor proportioning pumps
- X2004 pneumatic dispensing valve /mixer
- All regulators/hardware
- Purgeless or air/solvent purge assembly

### Options

- Additional hose lengths
- High output dispensing valve
- Drum transfer pumps
- 5 gallon tanks
- 5/55 Gallon rams/pumps for high viscosity adhesives
- Stainless steel tanks
- Wide range of dispensing nozzles for your application
- Custom fabricated carts-portable, stationary, boom/mast
- Precision SST gear pumps, flow monitors, battery powered ratio alarms, PLC's available

We proudly serve these industries... Wind Power, Marine, Rail, RV, Automotive, Truck, Tub and Shower, Swimming Pools, Jacuzzis, Water Park and Playground, Storage Tank, Architectural, Recreational Products
